Education

Delhi Skill and Entrepreneurship University

Bachelor of Computer Applications (BCA), CGPA: 9.50 / 10.00 – Branch Topper

Sarvodaya Kanya Vidyalaya

CBSE Class XII – 89%

June 2026

Delhi, India

2023

Delhi, India

Internship

AonixGlobalAI

Full Stack Developer Intern

Jan 2025 – Aug 2025

Remote

- Developed and deployed full-stack web applications using React.js, Node.js, Express.js, and MongoDB, integrating frontend interfaces with backend services and APIs.
- Designed and optimized RESTful APIs and backend business logic, improving API response time by approximately 30% through efficient request handling and database operations.
- Implemented API integrations, debugging, error handling, and backend workflows while collaborating with cross-functional teams in an Agile environment.

Projects

HeraPheri | *Node.js, Express.js, MySQL, Sequelize, Redis, BullMQ, Socket.IO, JWT, Razorpay, React.js* — Code

- Built a two-sided task marketplace where Requesters create and fund tasks while Executors discover, accept, execute, and submit proof through a controlled task lifecycle.
- Developed RESTful APIs using Node.js, Express.js, and Sequelize with JWT authentication, role-based authorization, transactions, migrations, validation, and modular backend architecture.
- Implemented Redis and BullMQ for asynchronous background jobs, Socket.IO for real-time updates, and Razorpay payment workflows with verification, webhooks, refunds, and payment-state tracking.

Job Application Tracker | *Node.js, Express.js, React.js, MySQL, Sequelize, JWT, Multer, Node-Cron* — Code

- Built a full-stack job application management platform with JWT authentication, application tracking, company and job listing management, attachments, reminders, and dashboard analytics.
- Developed RESTful APIs using Node.js, Express.js, and Sequelize with filtering, search, pagination, sorting, date-range queries, and user-specific data access.
- Implemented file uploads with Multer and automated email reminders using Node-Cron, with modular controllers and services for maintainable backend architecture.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python, SQL, C++

Backend: Node.js, Express.js, REST APIs, MVC, Middleware, Authentication, Authorization, JWT, Webhooks

Databases: MySQL, PostgreSQL, MongoDB, Sequelize, Transactions, Migrations, Indexing, Query Optimization

Caching & Async: Redis, BullMQ, Background Jobs, Job Queues, Asynchronous Programming

Real-Time & Payments: Socket.IO, Razorpay, Cashfree, Payment Verification, Refunds

Frontend: React.js, React Router, HTML5, CSS3, Axios, Responsive Web Design

Security & Tools: Helmet, CORS, Rate Limiting, Input Validation, Git, GitHub, Postman, VS Code, Railway, Vercel

Achievements

- Graduated with 9.50+ CGPA and secured the Branch Topper position in BCA.
- Solved 130+ Data Structures and Algorithms problems on LeetCode and TakeUForward and completed the JavaScript Professional Certificate.
- Selected for a competitive ideathon and received the Advanced District-Level Certification under the Delhi AI Grid program.
